MOHAMED MOUSSA
Junior Mobile Application Developer | Dart · Flutter · C# · Unity
Alexandria, Egypt • +20 128 463 2150 • taskye3@gmail.com • linkedin.com/in/mohamesmoussa

PROFILE

Junior mobile application developer specializing in cross-platform app development with Dart and Flutter, alongside interactive software development in C# and Unity. Proven track record of architecting and building multi-screen mobile platforms, custom interactive UI configurators, state management systems, and end-to-end e-commerce/supply-chain workflows. Backed by two years of hands-on IT help desk and technical support experience that built a strong focus on software quality, real-world user needs, and quick root-cause debugging. Seeking a Junior Mobile Developer role with a software development company in Egypt.

TECHNICAL SKILLS

* Mobile Development: Dart, Flutter, cross-platform mobile architecture, custom interactive UI/UX components, state management (Bloc / Provider / Riverpod), RESTful API integration, dynamic form validation & step routing.
* UI/UX & Design Systems: Multi-step wizard workflows, interactive product configurators, dynamic price estimation engines, live preview state rendering, responsive layout design.
* Programming & Core Engineering: C#, Object-Oriented Programming (OOP), state machines, internal tool development, script generation, debugging & root-cause analysis.
* Game & Interactive Systems: Unity (2D & 3D), gameplay mechanics, animation systems, encounter design, iterative performance tuning.
* IT Foundations & Automation: Networking & infrastructure (CCNA), operating systems & hardware, technical troubleshooting, Excel / VBA automation.

PROJECTS

YLB (Your Local Brand) — Apparel Manufacturing & E-Commerce Mobile App (In Development)
* Role: Lead Mobile Application Developer & UI/UX Architect
* Tech Stack: Flutter, Dart, REST APIs, State Management
* Conceptualizing, architecting, and prototyping a cross-platform mobile platform designed to bridge new clothing brand founders with regional apparel factories and supply chains.
* Engineering a 4-step dynamic product creation engine (Category & Garment Selection -> Fabric & Material Specification -> Custom Cuts & Printing Options -> Sample Order & Doorstep Delivery) that turns complex manufacturing orders into a streamlined, 4-click consumer workflow.
* Developing custom interactive UI components including real-time fabric/color selection matrices, live price-per-unit estimators based on quantity tiers, custom print/embroidery placement selectors, and order status tracking dashboards.
* Structuring clean separation of concerns using reactive state management to seamlessly track user customization choices across multi-screen flows prior to checkout.

Waslny — Student Transport Mobile App

* Role: Mobile Developer & Designer
* Tech Stack: Flutter, Dart
* Cross-platform mobile application engineered to solve daily transportation and routing challenges for university students.
* Designed clean UI/UX flows and implemented core frontend functionality to take the project from problem definition to a working product.

3 Nights — Interactive PC Game (Faculty of Science, Alexandria University)
* Role: Developer
* Tech Stack: Unity, C#
* Delivered an end-to-end playable build from initial concept through design, implementation, and gameplay iteration.

Cisco VLAN & Port Configuration Generator — Internal Tool
* Tech Stack: Automation Scripting / VBA
* Developed an automation tool to generate network switch configurations across dozens of devices, replacing manual input with standardized output generation.

PROFESSIONAL EXPERIENCE

Information Technology Specialist | GIECO | Borg El Arab, Egypt
Jul 2026 – Present
* Configure and maintain multi-rack Cisco Catalyst networks and administer site Sophos firewalls.
* Automate and document network configuration at scale using single-source datasheets.

Technical Support Specialist | INTELCIA
Dec 2025 – May 2026
* Diagnosed software, connectivity, and configuration faults for end users, translating complex user issues into structured technical bug reports.

Retention Specialist | Sutherland
Mar 2025 – Dec 2025
* Managed high-volume client communications in a target-driven environment to resolve root causes of technical and service complaints.

IT Help Desk | Farid · MMG United for Trades & Distribution · GIECO (Internship)
2024 – 2025
* Provided first-line technical support across hardware, operating systems, and software applications.
* Designed and deployed the custom configuration-generator automation tool during internship.

EDUCATION, CERTIFICATIONS & LANGUAGES
* Alexandria University — Software Industry and Multimedia (SIM), 2023

* Cisco Certified Network Associate (CCNA)
* Languages: Arabic (Native) · English (Professional working proficiency)
